

Siraj LMS

Your Platform.

Your Brand.

Your Intelligence.

The AI-powered LMS built for forward-thinking organisations in the GCC.

What's Included

Everything you get with Siraj LMS — the AI, the platform, and a fast path to launch.

The AI Layer

- 24/7 AI Tutor — personalised guidance that adapts in real-time
- CapyCoach Scenario Builder — branching practice scenarios for real decisions
- AI Feedback & Proctoring — nuanced feedback and secure exam monitoring
- AI Content Creator — generate text, quizzes, and imagery inside the platform
- All four are live and ready to deploy from day one

The Platform

- Fully branded on your own domain — your logo, colours, and name
- Native iOS & Android mobile app included
- Full English and Arabic interface as standard
- SCORM, AICC & CMI5 compatible
- Built and hosted in the GCC — data stays in region

Quick Start

- 50+ ready-to-use modules across English and Arabic
- Complimentary promotional animation package included
- Four-session admin training plan as standard
- Go-live in weeks, not months

The AI Layer

Three products. One platform. Always on.

24/7 AI Tutor

Always Available

Continuous, personalised guidance that adapts to every learner's pace in real-time. No waiting for a trainer. No scheduling. Just answers when your people need them.

CapyCoach Scenario Builder

Practice Without Risk

Automatically generate dynamic, branching scenarios for decision-making and crisis management. Your people practise real situations in a safe environment before they face them live.

AI Feedback & Proctoring

Beyond the Quiz

Instant, nuanced feedback on assessments, plus secure automated exam monitoring. More meaningful than a pass/fail score. More trustworthy than an unmonitored test.

AI Content Creator

From Idea to Course in Minutes

Generate text, quizzes, and imagery directly inside the platform. Authoring teams build courses faster — and stay on-brand without leaving Siraj.

The Platform Foundation

The enterprise-grade LMS underneath the AI — built to satisfy L&D, IT, and the C-suite.

Native Mobile App

Custom-branded iOS & Android app. Learning on the go, on your platform, in your name.

Executive Dashboards

AI-driven analytics that surface knowledge gaps, track ROI, and give leadership real visibility.

Agile Customisation

Bespoke dashboards and custom features built exactly the way your business needs them. No red tape.

Universal Compatibility

Host SCORM, AICC, CMI5, PDFs, videos, and custom modules. Works with what you already have.

Bilingual by Default

Full English and Arabic interface. One platform for your entire workforce, wherever they are.

Blended Learning

Combine online, virtual, and classroom training in one unified schedule and calendar.

Security & Reliability

99.9%

Uptime
Guarantee

Developed &
Hosted in the GCC

Data stays in region.

Security patching & regular updates

Anti-virus, rootkit & permissions scanning

Getting Started

From signed contract to live platform — here's how it works.

The Quick Start Bonus

Live in 1–2 weeks — not months.

Every Capytech LMS comes with a free library of 50+ modules across English and Arabic, plus a complimentary promotional animation package to drive employee engagement on day one.

Admin Training Plan (Included)

- Session 1: User management, dashboard & basic features
- Session 2: Course creation, enrolment & content upload
- Session 3: Reporting, gamification & learning pathways
- Session 4: Optional extension or repeat as needed

Go-Live Timeline — 1 to 2 weeks

1. Kickoff (Days 1–2)

2. Setup (Days 3–5)

3. UAT (Days 6–9)

4. Go Live (Day 10–14)

Why Capytech

10+ years building learning solutions for enterprise and government clients across the UAE and Gulf.

Dubai AI Seal Certified

Recognised by the Dubai government for responsible and effective AI deployment.

GCC-Based & Arabic-First

Built in the region, for the region. Data stays local. Interface works as well in Arabic as English.

Articulate Authorised Partner

One of the few certified Articulate partners in the region — so your content is always best-in-class.

Enterprise-Grade Security

Penetration tested, GCC-hosted, 99.9% uptime. Compliant with enterprise and government requirements.

Dedicated Customer Success

You get a named account manager, an onboarding plan, and ongoing support — not a ticketing queue.

10+ Years in the GCC

Long-term relationships with government, military, hospitality, and enterprise clients across the Gulf.
